#### THREW DEADLY ACID Miss Olga Carlgren the Victim of an Unknown Woman's Hatred.

A dastardly attempt was made Saturday night to inflict terrible injury upon a young lady well known in this city, and it is quite likely that some sensational developments will be made if the guilty person is apprehended. The

police learned of the facts last night, and they are as follows:

On Saturday evening Miss Olga Carlgren and her sister were walking along East Temple street, going south, and were near the Kenyon hotel, when suddenly a young woman, who is de scribed as being rather short of stature and dark complexioned, rushed through the crowd toward the sisters and threw eulphuric acid in Miss Carlgren's face None of the acid entered the young woman's eyes, but her face was severely turned. She hastened to the office of Dr. Beer for medical attention, and it was then she learned that sulphuric acid was used. The police have been furnished a description of the woman who made the attack and officers are doing their best to locate her.
Miss Carlgren says she has no idea why
the attack was made, but it is believed
the cause was jealousy.

Among other plunder taken was a number of Springbrook pocket knives. #### GRAND JURY REPORT. One is Looked For on Saturday Mort. ing Next-What Then?

The grand jury has adjourned until Saturday moreing at 10 o'clock, at which time it is expected a report will be submitted to the court. The mere fact that the jury will meet on Saturday indicates that it has completed its work and will submit a report, for the reason that it has never yet held a session on Saturday and would not now meet on that day unless some-thing unusual was underway. Furher than that Judge Morse, who has been out of the city all week, will probably return Saturday morning for the ourpose of receiving the report and discharging the jury.

Much speculation is going on con-cerning the result of the jury's investigations, but the general opinion ex-pressed is that not a single indictment will be returned by that body.
